

## HISTORY OF THE A&M GARDEN CLUB

Organized in 1936, A&M Garden Club was the first community gardening group organized at Texas A&M University, to teach new residents how to grow in our soils and climate.

Throughout the years the Club has worked on many community parks and street plantings, a Blue Star Memorial at Veterans' Park, and Brazos County Arboretum, to name just a few. Current community contributions include Richard Carter Park, working with the students at S.O.S. Ministries after school, and having educational booths at various events such as Wish upon a Butterfly, Fourth of July Celebration, Arbor Day and Earth Day.

We enjoy Flower Shows, Floral Design, visits to Gardens near and far, friendships and sharing tips for home and garden. The Club has received numerous awards, including Texas Garden Club of the Year in 2010 and 2013, and Texas Bronze Garden Club of the Year in 2014. We adhere to conservation and environmental practices.

## A&M GARDEN CLUB OBJECTIVES

A&M Garden Club promotes the love of gardening, floral design, horticulture, civic responsibility, landscaping, environmental concerns and garden therapy for men, women and children. It encourages participation and support of educational programs for both the beginner and advanced students. Its purpose is to preserve, protect and conserve the natural resources of this country, and to maintain and enhance the beauty of our lands.
