## JULY IN THE GARDEN

**PLAN:** To clean out flower beds and alter their design if desired. Let roses and other fall-flowering plants rest for the next 2 months. Start poinsettia cuttings to be rooted for Christmas bloom.

**PRUNE:** Pinch back mums for the last time. Cut out dead wood. Trim plants that need to be properly shaped.

**PLANT:** July is not a good month for planting. If summer blooming seeds are planted, care must be taken to keep beds moist until germination occurs, and well-watered afterwards.

**FERTILIZE:** Mums, lawns, trees and shrubs.

**SPRAY:** Lawns, shrubs and roses if needed.

**WEATHER PROTECTION:** Cultivate lightly, mulch and water deeply. DO NOT sprinkle, water early in the morning to allow water to evaporate during the day.

**BLOOMING:** Crape myrtle, hibiscus, oleander, plumbago, daylilies, confederate rose, althea, many other summer annuals and perennials.

Oleander
